-  +62 857-7126-3192
-  Jl. Al Karomah RT 05/04 No. 60
-  <https://www.linkedin.com/in/audyari-wiyono-249b4322b/>
-  [github.com/Audyari](https://github.com/Audyari)

## CORE SKILLS

### Network Design & Implementation

Ability to design, implement, and troubleshoot complex network infrastructure including LANs, WANs, and WLANs

### Network Security

Knowledge of network security protocols and technologies, such as firewalls, VPNs, and intrusion detection systems

### Full Stack Development

Modern web development using React, Next.js, Vue.js with focus on security and performance

### Cloud Infrastructure

AWS, Azure deployment and management with DevOps best practices

## TECHNICAL SKILLS

### Frontend

- JavaScript
- TypeScript
- React.js
- Next.js
- Vue.js
- Nuxt.js
- HTML5
- CSS3

## PROFESSIONAL SUMMARY

I am a passionate and determined person who achieves goals. With over 15 years of experience in Network Engineering industry and now transitioning to Full Stack Development, I always try to give my best in every task I handle. My unique background allows me to not only write clean code but also understand the entire system it runs on—from database query to network packet.

## WORK EXPERIENCE

### Full Stack Developer

[Freelance & Personal Projects](#)

2021 - Present

- Developing modern web applications using React, Next.js, and Vue.js
- Building e-commerce platforms, portfolio websites, and management dashboards
- Implementing secure authentication and authorization systems
- Optimizing application performance and database queries
- Deploying applications to cloud platforms (AWS, Vercel, Netlify)

### Senior Network Engineer

[PT. Grahakarya Informasi](#)

2017 - 2021

- Design, implement and maintain network infrastructure including configuring routers, switches, firewalls and other network equipment
- Troubleshooting and solving network problems to minimize downtime and ensure availability of network services
- Network requirements analysis and implementation of Cisco NAC solutions
- Router configuration for Multicast networks using IGMP Protocol

### Network Security Specialist

[PT. Solusi Digital Indonesia](#)

2010 - 2017

- Implemented security protocols and firewall configurations
- Conducted security audits and penetration testing
- Developed network monitoring and incident response procedures
- Managed VPN implementations and network access control

## FEATURED PROJECTS

- Tailwind CSS

### Backend

- Node.js
- Express
- Python
- Django
- PHP
- Laravel
- RESTful APIs
- GraphQL

### Infrastructure

- Cisco Routers
- Switches
- Firewall Configuration
- VPN Implementation
- Network Monitoring
- Load Balancing

### Cloud & DevOps

- AWS Services
- Docker/Kubernetes
- CI/CD Pipelines
- Git/Version Control
- Linux Administration

## CERTIFICATIONS

Certificate of Network Defence  
Network Security Institute

Cisco CCNA  
Cisco Systems

Sertifikat Jaringan Komputer Dasar  
BINUS University

Fortinet Training Institute  
Fortinet

AWS Solutions Architect  
Amazon Web Services

## LANGUAGES

|            |        |
|------------|--------|
| Indonesian | Normal |
| English    | Normal |

## Portfolio Website

A modern, responsive portfolio using Next.js and Tailwind CSS, achieving high Lighthouse scores and seamless user experience. Features dynamic project showcase, contact form, and optimized performance.

## FashionHub ID - Retail Management

A comprehensive retail management dashboard with Next.js, enabling real-time inventory tracking, sales analytics, and product management. Includes user authentication, data visualization, and responsive design.

## LOGSPOT - Changelog Application

A clean and focused changelog application using Vue 3, designed for readability and easy content management. Features markdown support, version tracking, and SEO optimization.

## SkyPart Solutions - E-commerce

A lightning-fast, SEO-first e-commerce platform with Astro.js and Supabase, dramatically improving page load times and search visibility. Includes product catalog, shopping cart, and payment integration.

## LaporLoka - Location-based Reporting

A location-based reporting system that allows users to submit, track, and manage reports with geographical information. Built with Laravel and Livewire for real-time updates.

## EDUCATION

D3 Graduate of Informatics Management  
[Gunadarma University, Depok](#)  
2006

Network Engineering Certification  
[Cisco Networking Academy](#)  
2010
